

PICKLED STEEL

Pickled steel is a hot-rolled base steel that has undergone surface treatment to remove residual surface layers.

High-formability steels for deep drawing

EN 10111	VDA 239-100
DD11	
DD12	
DD13	HR2
DD14	

Structural steels

suitable for galvanizing or not

EN 10025
S235JR
S235J0
S235J2
S275JR
S275J0
S275J2
S355JR
S355J0
S355J2

Low-alloy high-strength steels for cold forming

suitable for galvanizing or not

EN 10149	VDA 239-100
S315MC	HR300LA
S355MC	HR340LA
S420MC	HR420LA

Dual Phase steels

EN 10338	VDA 239-100
HDT580X	

Hot-rolled ferrite-bainite steels

EN 10338	VDA 239-100
HDT450F	HR300Y450T-FB
