

SHAPE BLANK CUTTING

Robert can assist you with blank cutting, an essential operation in the metal parts manufacturing process.

We benefit from two unique machines for cutting laser blanks from master coils, a wealth of technical expertise to guarantee clean, precise cuts that meet the requirements of every project. Thanks to our know-how and state-of-the-art equipment, we are able to cut blanks to shape with great precision, ensuring quality and conformity of parts for our customers.

	Reel width	Max. length	Thickness	Max. weight
PRESS 630T PARIS	max 2150mm min 100mm	4300mm	from 6/10 to 40/10	30T
